

Daniel Kang (Dongyoon)

69 Brown St. Providence, RI • Phone: (617) 750-7878 • E-Mail: dydanielkang@gmail.com • [LinkedIn](#) • [GitHub](#)

EDUCATION

Brown University

Computer Science Sc.M., GPA: 4.0/4.0

Relevant Courses: Learning and Sequential Decision Making, Reintegrating AI, Human-AI Interaction

Honors Thesis: Logical Operators for Concept Learning in Large Language Models

Advisor: Ellie Pavlick

Providence, RI

May 2026

Brown University

Sc.B. Mathematics - Computer Science, GPA: 3.97/4.00

A.B. Linguistics

Honors Thesis: Logical Operators for Concept Learning in Large Language Models

Advisor: Ellie Pavlick

Providence, RI

May 2025

HONORS & AWARDS

Honors: Magna Cum Laude, Phi Beta Kappa, Sigma Xi

Awards: Karen T. Romer Undergraduate Teaching and Research Award, National Greek Exam Highest Award

Competition: Jane Street Estimathon 1st Place

COMPUTER SCIENCE & MATH RESEARCH

Brown LUNAR Lab

Thesis Research

- Test the causal faithfulness of the reasoning tokens and latent reasoning of LLMs
- Find limitations intervention methodologies for CoT reasoning steps

Providence, RI

2024 - Present

Center for Human-Compatible AI

Research Intern

- Examined how LLMs internally organize factual knowledge into entities and properties through mechanistic interpretability, contributing to the recent literature on LLM factual recall
- Built tools to examine and modify LLM's knowledge structure for safer AI

Berkeley, CA

2025

Brown University

Summer Research

- Formulated and proved lemmas on the existence of periodic billiard paths for Ideal Hyperbolic Quadrilaterals under regular Euclidean billiard rules by creating simulation programs with Python

Providence, RI & Heidelberg, Germany

2023

Johns Hopkins University

Independent Research

- Proved a theorem on random graphs that entropy is the upper bound of the graph's heterogeneity coefficient, starting a research project on a new information metric applicable to Information Theory and Machine Learning

Baltimore, MD (Remote)

2020 - 2022

LINGUISTICS & OTHER RESEARCH

Brown University

Independent Study Research

- Analyzed discourse anaphors to propositions and events that involve epistemic uncertainty
- Extended a previous dynamic semantics framework to cover conditionals
- Delivered a talk as one of the 10 main sessions in a top conference

Providence, RI

2024 - 2025

Center for Digital Scholarship

Student Researcher

- Designed a pipeline using AI models to automate data inconsistency detection, helping publicize records and experiences of enslaved Native Americans
- Created a program involving AI that generates XML-tagged archival data from raw pdf inscription files, resolving a research bottleneck and making archival data more accessible to the public

Providence, RI

2024 - Present

- Developed a framework to develop metrics for AI generated outputs that do not have corresponding ground truth labels

Brown Language and Thought Lab

Providence, RI
2024

Research Assistant

- Recruited participants and conducted studies for experiments designed by PhD students
- Created stimuli for language acquisition experiments using JavaScript and React
- Automated a data pipeline to gather and process data for 500+ children born across Rhode Island each month for research participant outreach, minimizing hours of manual work for the lab

PUBLICATIONS

Kang, D., Li, K., AnderBois, S. (2025). *Propositional Anaphora and Alternatives in the Semantics of In Which Case*.

- Conference talk at Semantics and Linguistic Theory 35
- Published to the proceedings

Kang, D., Musker, S., Pavlick, E., Feiman, R. *Schrödinger's CoT: Reasoning Model Interpretability in the Presence of Intervention Side Effects*

- Submitting to ICLR 2027

Kang, D., Kostolansky, T., Feng, J. *How LLMs Learn Entity Vectors for Robust Factual Recall*.

- Manuscript in preparation

WRITING & COMMUNICATION

The Prospector

Providence, RI
2025

Essay Publication

- Published an essay, *The Unbearable Lightness of Reading* on a Comparative Literature journal, giving structural analysis of a novel by Milan Kundera that maps the narrative plot to linguistic and cognitive structures

A Priori

Providence, RI
2023-2024

Managing Editor

- Managed the operations and publication of an undergraduate philosophy journal at Brown University

Intercollegiate Finance Journal

Providence, RI
2022-2023

Staff-Writer

- Published an article about the future trends in sustainable finance
- Managed and automated submission outreach to dozens of schools

SERVICE & LEADERSHIP

Brown AI Safety Team

Providence, RI
2023 - Present

Leader

- Lead an AI safety student group with educational programs, reading groups, workshops, and policy projects

Housing Opportunities for People Everywhere

Providence, RI
2023 - Present

Member

- Participated in weekly research, political campaigns, and community education to help pass affordable housing laws
- Sourced and delivered food, hygiene products, and necessities, and found temporary housing for people in need

Alpha Delta Phi

Providence, RI
2023 - 2024

President

- Hosted community service trips to local organizations such as the Rhode Island Community Food Bank and Mathewson St. Church soup kitchen

Outreach & Prep

Online

Leader

2020 - 2021

- Recruited and managed more than 30 tutors and 100 students disadvantaged by COVID-19 as a co-leader of a non-profit organization

PROFESSIONAL & ORGANIZATIONAL EXPERIENCE

Almora Advisors

Remote

Non-Profit Consulting Intern

2023

- Facilitated a new consulting project with the City College of New York, and presented deliverables to two non-profits
- Helped expand the business from the East Coast to Utah, successfully completing the first project in the West Coast and starting a relationship with six new non-profit organizations

Cedar Street Capital

New York, NY

Sustainable Investment Analyst Intern

2022-2023

- Compiled databases and wrote reports on the renewable energy and agriculture sector, leading to the project below
- Assisted raising capital from European DFIs and ESG investors to fund agricultural storage facilities in Africa to reduce food waste and increase independence of smallholder farmers
- Sourced infrastructure projects to fund with a novel monetization model involving collateralization of infrastructure income, utilizing the Inflation Reduction Act, the CHIPS Act, and the Bipartisan Infrastructure Law

Future of Sustainable Investing Conference (FSIcon)

Providence, RI

Strategy Team Member

2022-2023

- Planned and coordinated an annual sustainable finance conference with over 27 speakers and 200 attendees, selecting speaker topics, managing the budget, and handling logistics
- Communicated with the faculty board, sponsors, vendors, hotels, etc., managing the marketing and relations teams

SKILLS

Computer: Python, Java, C, R, JavaScript, MATLAB, SQL

Language: Korean (native), Italian, French, Mandarin (conversational), Latin, Greek (reading)
